It's a Mistaken Idea.

To suppose that the whole story about our \$10.00 Spring suits is talk when they are called cheap. Nothing of the kind! The word cheap is one of the cheapest in the English language; it is abused almost as much as it is used. Cheap in the clap trap sense of the word these suits are not; cheap in a most unusual sense they certainly are It is almost as much of a mystery to us how they can be sold for that price, as it will be to you when you see them. They cap the climax as it was never capped before. Lots of new styles in boys and children's suits received this week. See our 3,00 Jersey suits Sorry we couldn't wait A SURE CURE, effects of early all of you lost Saturday. It vice which brings organic the destroying on all of you last Saturday. Have additional help today and will try to serve you all. Come and see us. We have the stock of the city this season.

THE VENEZUELAN REBELLION.

New York, April 8.—Cabling his paper under date of April 7, the Herald's Caraca (Venezuela) correspondent writes thus:

"Advices have been received today from La Guayra of another encounter between the government troops and the insurgent forces under the command of General Crispo. It is said to have resulted in the entire rout of the rebels. They are reported to have fied in all directions and to be so disorganized that it will be difficult for them to be collected again in a large enough number to cause President Palacio any future anxiety. General Crispo is said to have fied precipitately on horseback for the second time, and to be now in hiding somewhere in the mountains. His exact whereabouts are unknown. The government troops are reported to have occupied General Crispo's residence. The authorites are jubilant.
"Advices received by the revolutionists here state, however, that their cause is progressing most favorably. Arms and ammunition continue to be brought into Venezuela from Curaco and other islands off the coast. General Crispo's forces are receiving additions all the time from the various provinces, as the news of the over-awing of the national legislature and of

receiving additions all the time from the various provinces, as the news of the overawing of the national legislature and of the judiciary is passed from mouth to mouth. It is pretty certain that the insurgents have not yet played their strongest cards. They are arming and drilling their men, recruiting their ranks and issuing appeals to all parts of the republic."

15,000,000 bushels of wheat. The most couservative estimate was 7,000,000 bushels. For several days events have, with strange coincidences, militated against Pardridge's 75-cent ambition. Today furnished the climax. The wheat market opened strong, at a 1-cent per bushel advance on yesterday's closing price. The advance continued until July equaled May. There was a terrific business done on the bulge, and for a quarter of an hour hundreds of thousands of bushels were bought and sold. Pardridge appeared to be in no way worried over the biga vance. He and his brokers kept tunging at the lines, but each freshjeffort of theirs in that direction appeared to goad a fresh advance. The great bulge of the day was made near the close, when there was some remarkable buying, which the trade attributed to Pardridge's trying to cover. This caused the whitest scene of all, and the May price went from 83% to 84% cents in a few minutes. Some realizing put the price at 84% cents at the close. By long odds the day in wheat was probably the hardest that Pardridge ever had to face. He fought the advance up to the last hour. It was believed, nowever, that he weakened and tried to cover through unknown houses shortly before I o'clock.

Boston, April 8.—The Democratic state convention for the choice of four delegates to the national convention at Chicago met this forenoon. Three different tickets were distributed through the hall. A temporary organization was effected, committees appointed, and a racess taken.

Hon. Edward Avery of Braintree was chosen permanent chairman, and the proceeded to address the convention. The address was listened to with close attention. When Mr. Avery said that the next president must be a Democrat there was applanee and shouts of "theveland." Mr. Avery attempted to proceed, but three cheers were demanded for Cieveland and were given with a will and a tiger. Then came a call for cheers for Hill. These were given, but with a liberal mixture of hisses. As Mr. Avery proceeded to draw the ideal candidate the convention was quick to recognize the portrait of Cleve-

DUN & CO. MULGTED.

New York, April 8 — Some time ago the City National bank of Birmingham, Ala, began a sult in the United States circuit court against the commercial agency of K. G. Dan & Co. to recover \$5.264.00 toot on drafts which the bank discounted for W. A. Kitts, a lumber merchant of Oswego, on alleged Islas representations concerns the credit and financial standing of Kitts, furnished the commercial agency by S. B. Burchard, their representative. The case was decided yesterday after a three days trial before Judge Shipman and a jury. The jury was out fifteen minutes and found a verdict for the full amount claimed, including interest, which aggregated \$5.393.28.

This is the first case in which any commercial agency has been beld liable for a fall previous cases of a similar kind the agency has been releved of all responsibility. Judge Shipman, in his charge, told the jury that the plaintiff could not recover unless the jury was satisfied that. Burchard made representations fraudulently, and that the defendants were not responsible for any negligence on the part of Burchard in obtaining the information upon which the representations were wastern, is to be made president of the Union Pacific that, bow president of the Chicago and Northwestern, is to be made president of the Union Pacific that, and the continued to speak with authority. Osticars are inclined to credit the story. They point to the assertion that Jay Gould has look his grip on the Union Pacific: that Highitt is already a director of that company, that J. Pierrepont Morgan, who represents the Vanderbilts, is a power in the use of both gold and affect as management of its affairs, and that the management of its affairs, and tha silver coin at the option or discret

BALDWIN, Kan. April 8.—The annual season of the Kansas Academy of Literature is being held here. It opened hast evening in Baker university chape! A large number of members from all parts of the state are present. Freshent Quayle delivered the welcoming address, and the president's annual address. Fools Lare and "The Dialect of Kansas" were the chief topics of discussion this morning. A number of papers were read this afternoon, and an exhaustive discussion of literary clubs in Kansas followed. The meeting edjourns at noon tomorrow.
